**Trusted by *over 500 clients* across
15+ industries**

We empower companies to bring new ideas to market by offering the most comprehensive range of 3D printing and related services across the UAE, MENA region, and beyond.

Many of our clients return to us time and time again to bring their vision to life.

Why Choose Us

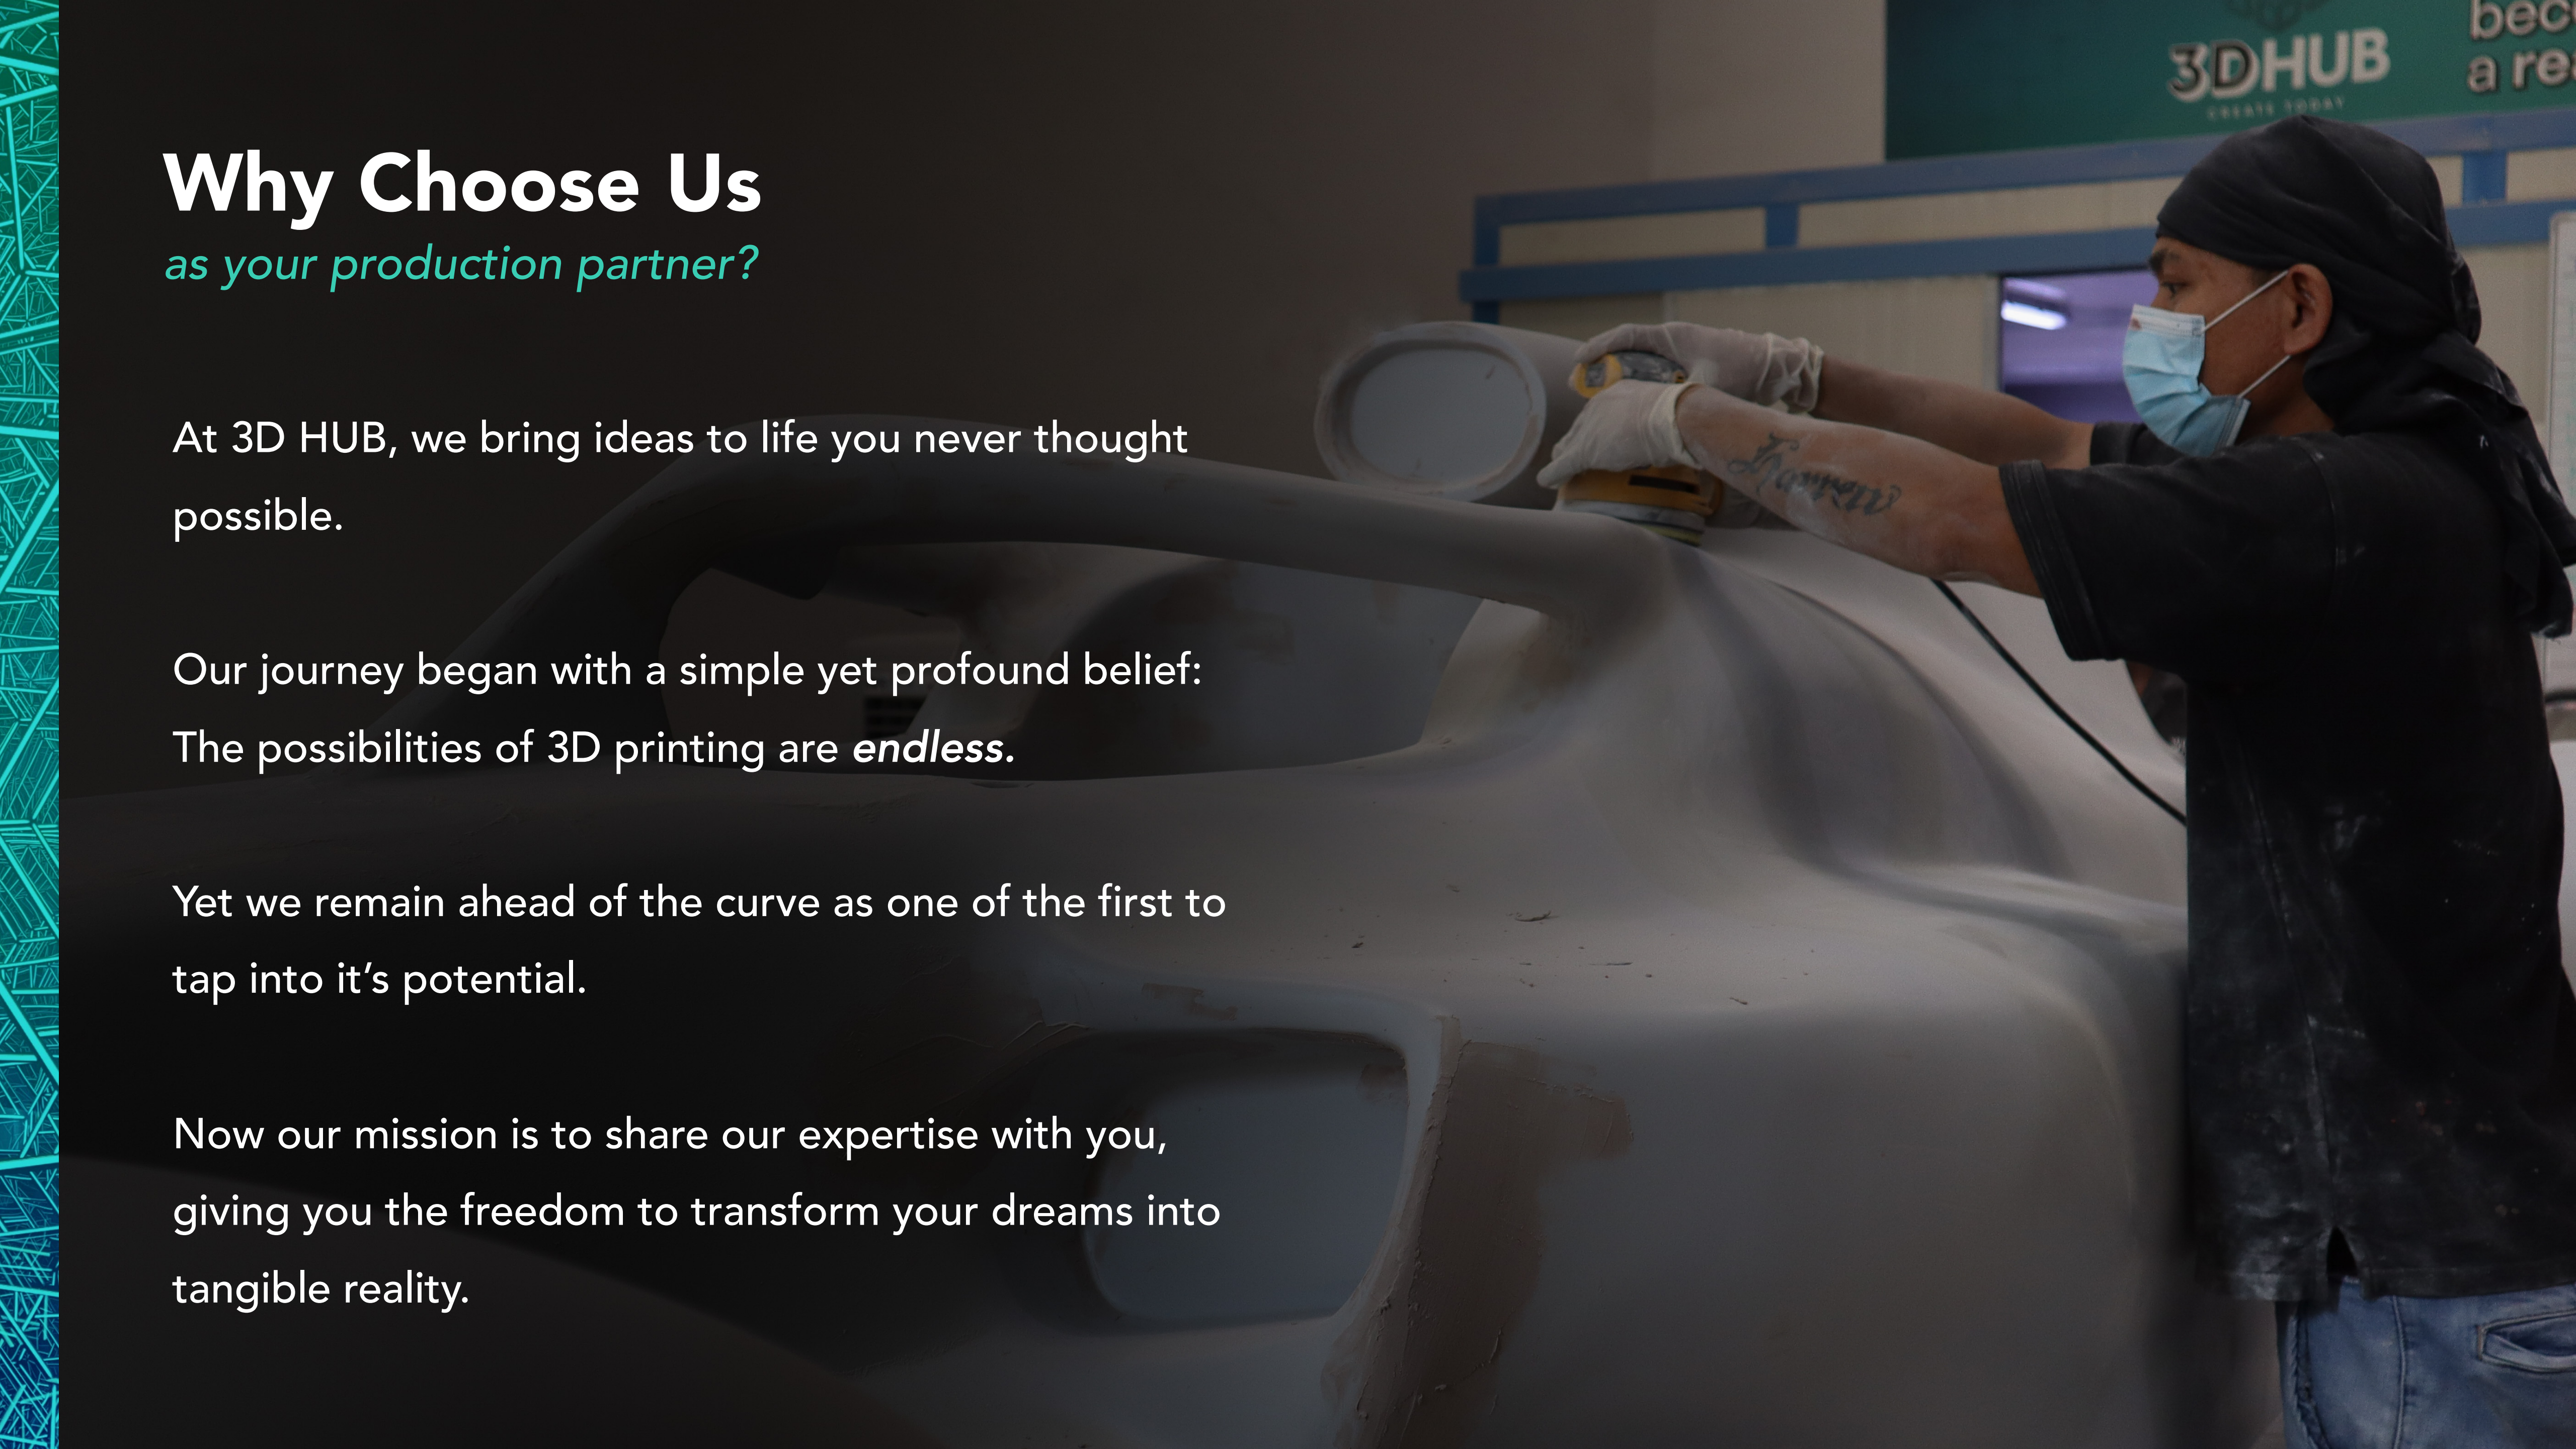

as your production partner?

At 3D HUB, we bring ideas to life you never thought possible.

Our journey began with a simple yet profound belief:
The possibilities of 3D printing are *endless*.

Yet we remain ahead of the curve as one of the first to
tap into it's potential.

Now our mission is to share our expertise with you,
giving you the freedom to transform your dreams into
tangible reality.

Our Services

Concept & Design

We offer a wide spectrum of services including

- + Mood Concepts + 3D Rendering + 3D Scanning
- + Reverse Engineering + Concept Testing

3D Printing

Our industry and customer-specific solutions include

- + FDM + SLA + MJF

Fabrication & Moulding

Our craftsmen & production engineers work with

- + Styrofoam + Wood + Metals
- + Fiberglass + GRP Moulding

Our Facility

The bridge between your imagination and real-life.

Established out of the worlds leading innovation hub, Dubai, our cutting-edge hardware and industry experience insures a hassle-free and unique production process for our clients.

Our manufacturing capabilities ensures end-to-end production including installation and delivery.

Success Guaranteed

24/7 Production

We understand that time is a precious resource for our clients. Our printers run 24/7, meaning you can focus on the important things, while your production facility constantly runs in the background.

Hassle-free Process

Our years of experience across multiple industries means we have the ability to solve all manner of challenges so you don't have to. Leave it to us.

Lasting Impression

Whether you have a design in mind, or need our creative guidance, we are here to make sure your project leaves a lasting impression on all those that experience it.

Sustainability

Building towards a minimal and sustainable future.

We center our business practice around a sustainable future. We ensure lesser carbon footprint through, 3D printing materials made out of Corn Starch (80% Bio degradable), lower material waste, reduced energy consumption, and lesser need for space. 3D Hub offers to Recycle and Reuse materials in its subsequent projects.

Unlock your
imagination.
